  – Current rules for all submissions
  – Broken into 4 main sections:
    • General Principles
    • Personal Names
    • Non-Personal Names
    • Armory
  – Also includes 13 appendices

Rules

• GP1A: "Laurel shall define standards suitable to the type of item to be registered, and apply them uniformly to all such submissions. These standards shall be designed to support the historical re-creations of the Society and to provide sufficient difference from names and armory registered within the Society to avoid undue confusion, to avoid the appearance of unearned honors or false claims, and to provide sufficient difference from historical or fictional personages to prevent offense due to obvious usurpation of identity or armory. Members are encouraged to develop unique, historically valid names and armory."

Rules

• GP1B1: Submissions should be reasonably period
  – Period elements
  – Period combinations of the elements
  – “Core style” defines most common elements and combinations
  – Individually attested patterns allow submissions outside core style
Rules

• GP1B2: Submissions should be free of conflict, presumption, or offense
  — Conflict prohibits submissions that are too close to another SCA registration
    • Permission can be given to resolve a conflict
  — Presumption prohibits submissions that are too close to an important non-SCA person, or which claim special powers or position
    • Permission cannot resolve a presumption problem
  — Offense prohibits submissions that are offensive to the populace or general public.

Rules

• GP3A: Definition of Period - Time
  — Generally before 1600
  — The period 1600-1650 is known as the “grey period”
    • Elements will usually be allowed
  — No official beginning time, but must be from cultures known to Medieval and Renaissance Europe
    • Classical Greek and Roman elements are acceptable
    • Elements from Pharaonic Egypt are not acceptable

Rules

• GP3B: Definition of Period – Place
  — Any part of Europe is always allowed
  — Names
    • Names from other cultures that had contact with period Europe are allowed for people and households
    • Not allowed for SCA Branches
  — Armory
    • Non-European heraldic elements and patterns are allowed
    • Rules are stricter than for European

    - Standard tinctures and postures
  - Lists oft-misused terms

---

**Submission Process**

- **Consultation**
  - The process of a herald helping a client choose and document a name or device submission
  - Not required in all kingdoms
  - In some kingdoms, the consulting herald takes the forms and payment and forwards them to the Kingdom Submissions Herald
  - In other kingdoms (East) the client mails forms and payment themselves

---

**Submission Process**

- **Internal Letter of Intent (iLoI)**
  - In some Kingdoms called Letter of Presentation (LoP)
  - Collects a number of submissions for in-kingdom commentary
  - Issued by a senior kingdom herald (Eastern Crown Herald in the East)
  - At least two Kingdoms don’t use iLols.
Submission Process

• Internal Commentary
  – A period during which heralds from within the Kingdom can comment on submissions
  – Excellent learning opportunity
    • Newer heralds are highly encouraged to comment and ask questions
  – Duration varies – usually one month in the East
  – Names and device emblazons can be updated if a problem is found
  – Not used in all Kingdoms

Submission Process

• Decision Meetings
  – Only used in some Kingdoms
  – A senior kingdom herald (Eastern Crown Herald in the East) makes decisions as to which submissions have significant problems
  – In some kingdoms (AEthelmearc, Meridies) these are held over video conference and are open to the public – excellent learning opportunity

Submission Process

• Kingdom Letter of Decision
  – A senior kingdom herald (Eastern Crown Herald in the East) publishes the results of the kingdom commentary and/or decision meetings
  – Those without problems are forwarded to Laurel
  – Those with problems are returned for further work
Submission Process

• External Letter of Intent (xLoI)
  – Similar to the LoI, this letter will include those submissions forwarded by Kingdom to Laurel
  – Issued by a senior kingdom herald (Blue Tyger Herald in the East)

Submission Process

• External Commentary
  – A period during which heralds from the entire SCA can comment on submissions
  – Generally commentary is done by more senior heralds - new heralds are encouraged to read commentary, but probably should not comment unless they have special knowledge
  – Duration is two months
  – Names can be changed, but device emblazons cannot

Submission Process

• Decision Meetings
  – Based on external commentary, Society-level senior heralds make final decisions as to the registration of each submission
  – Pelican Queen-of-Arms rules on names
  – Wreath Queen-of-Arms rules on armory
  – Generally done at a meeting where other senior heralds participate, in person and by text chat
Submission Process

- Proofreading
  - Once the decisions are made and written up, they go out for two rounds of proofreading
  - Generally takes about one month
  - Proofreaders are sworn to secrecy – please don’t ask them for previews...

Submission Process

- Letter of Acceptances and Returns (LoAR)
  - Official publication of the registration decision
  - Sent out once per month by email and posted at [http://heraldry.sca.org/loar/](http://heraldry.sca.org/loar/)

Submission Process

- Letter of Acceptances and Returns (LoAR)
  - Organized into
    - Acceptances
    - Returns
    - Pends (delays) – usually to allow more commentary
  - Further subdivided by kingdom of submission
  - Cover Letter
    - Organizational info
    - Important rulings and other information
Submission Process

- **Letter of Acceptances and Returns (LoAR)**

  - Oscar Edition: The letter must convey the sense of charity, love, and joy.

  - Letter of Refusal of Permission (LoR): The refusal letter must convey a sense of regret and respect.

  - In the submission process, all LoIs and commentary are handled through OSCAR.

  - Main part contains xLoIs and Laurel-level commentary.

  - Kingdom “Gardens” contain iLoIs and Kingdom-level commentary.

OSCAR

Precedent

• Precedent is set on LoARs

• Rulings on registrations can create precedent

• Precedent can also be set on a LoAR Cover Letter

• Items registered without comment do not create precedent

  – “Prior registration is not a guarantee of future registration”
Precedent

• Not precedent:
  - Angela Fabbri: Device: the character creates new Ok and adds new gates.
    The submitter has permission to conflict with the device of Tanzen Ilyam. Per clause[19] point 1.
    - Simply a note on a registration
  - Simply a note on a registration

• Not precedent:
  - Reason for return is unique to this submission
  - Identifies a conflict

• Precedent:
  - Ruling establishes (or reiterates) specific rules
Precedent

• “Standard” citation format:
  – [Angela Fabbricci, A-Ealdormere, Feb 2013 LoAR]
  – [Brigit Larkin, R-Ealdormere, Feb 2013 LoAR]
  – [Cover Letter, Feb 2013 LoAR]

Precedent

• Collected Precedents
  – http://heraldry.sca.org/laurel/precedents.html
  – Organized by Laurel Tenure
    • Armor current through July 2008
    • Names current through May 2005
  – Compiled Name Precedents
    • Current through May 2004
  – Other ongoing or future projects

Precedent

• Searching Precedents

Final Thoughts

• Registerable vs. Authentic
  – A submission must be registerable, it need not be authentic
  – While we can encourage clients to design authentic names and devices, we cannot, and should not force the decision
  – If a client is set on a registerable but not very authentic submission, you should process it!

Final Thoughts

• Customer Service
  – It is our job to help our clients
  – We are here to make registrations happen, not prevent them from happening
  – When consulting, help clients create registerable submissions they like
  – When commenting, look for reasons to allow registration, not prohibit it
  – Heralds want a reputation for being helpful, not obstructionist!
